**Notice to Participants on AEMO decision to approve the making of the AMDQ Transfer Procedures for the Declared Wholesale Gas Market (Victoria) version 2.0**

This notice advises Declared Wholesale Gas Market Registered Participants that consultation under the ordinary procedure change consultative process prescribed in Rule 135EE of the National Gas Rules (**NGR**) concluded on 25 July 2012 for:

- **AMDQ Transfer Procedures**

There were no comments received on the proposed procedure change (PPC), and one comment was received on impact and implementation report (I&IR) from AEMO with regards to a change made to the Procedures, which incorrectly states that AMDQ Credit Certificates can be transferred between a Tariff D site and the Reference Hub. This change has since been withdrawn as shown in the change marked version below:

Having considered the consultation outcomes, AEMO is giving notice that it has approved these procedures to be made effective as of 27 August 2012. Final PDF versions of the Procedures have now been published on the AEMO website and can be located at the link below.
